

AARAV MEHTA

Senior Data and AI Engineer

Pune, India | aarav.mehta@example.com | +91 90000 11001

PROFESSIONAL SUMMARY

Data engineer with 7+ years of professional experience building batch, streaming, and machine learning platforms. Strong in Python, Spark, Kafka, Snowflake, dbt, Airflow, Databricks, SQL, and retrieval augmented generation systems.

TECHNICAL SKILLS

Python, PySpark, Apache Spark, Kafka, Flink, Snowflake, dbt, Airflow, Databricks, SQL, PostgreSQL, AWS, Docker, Kubernetes, MLflow, PyTorch, LLMs, RAG, Vector Databases

WORK EXPERIENCE

Senior Data Engineer | Northstar Analytics

04/2022 - Present | Pune, India

- Designed a Snowflake and dbt analytics platform processing 3 TB of retail data daily.
- Built Spark and Kafka pipelines with automated quality checks and Airflow orchestration.
- Delivered a RAG assistant using Python, vector databases, and local language models.
- Reduced pipeline runtime by 38 percent through partitioning and incremental processing.

Data Engineer | BluePeak Technologies

07/2019 - 03/2022 | Mumbai, India

- Developed Databricks and PySpark workloads for banking risk and compliance reporting.
- Created reusable ingestion frameworks for REST APIs, PostgreSQL, and object storage.
- Containerized services with Docker and deployed scheduled workloads on AWS.

Associate Data Engineer | DatumWorks

06/2018 - 06/2019 | Bengaluru, India

- Built SQL transformations and Python utilities for customer analytics pipelines.
- Supported production monitoring, incident resolution, and data reconciliation.

SELECTED PROJECT

Enterprise Knowledge Search

Implemented document ingestion, chunking, embedding generation, vector retrieval, and grounded response evaluation for an internal engineering knowledge assistant.

EDUCATION AND CERTIFICATIONS

B.E. in Information Technology, Savitribai Phule Pune University, 2014 - 2018

AWS Certified Data Analytics - Specialty
